### Gulf Air Iraq Pricing

Gulf Air is proud to announce new service between BAH and BGW. Pricing is currently loaded in the system for the new service effective September 1, 2009.

Pricing is being sold as point to point fares between BAH/BGW & BGW/BAH sectors in F, J & Y class. These fares, can be combined with any GF fare on an end to end basis and are valid for all classes and all fare types including published and unpublished fares. Please note the conditions of the most restrictive fare used will apply to the entire itinerary. The only exception to this is special local fares which are being sold from BAH & BGW (HEE3MBH & HEE3MIQ)

When adding a BAH/BGW or BGW/BAH segment, the fuel surcharge (YQ) should be collected for the **through** journey and not separately. Additionally, an insurance surcharge "Q" will auto quote in systems for all flights between BAH and BGW and must be collected under all circumstances.

A pricing record will have to be created in your system similar to the Sabre (Phase IV) example on the following page.

#### Baghdad Schedule

Flight	Days	Origin	Destination	Depart	Arrive	Aircraft
GF 201	Tu, Thu-Sun	BAH	BGW	09:45	11:30	A320
GF 200	Tu, Thu-Sun	BGW	BAH	12:45	14:25	A320
